MONTCLAIR M FILES

Files prepared for MFEE: The Montclair Fund for Educational Excellence by Alexandra Dubow, February 2014. For additional information, usage guidelines, or other questions, please contact info@mfee.org.

EPS files with and without the center filled with white. Note how the ones on the left show the circles in the backgrounds while the ones on the right do not.

EPS file in white (reverse) shown with three different backgrounds. The file itself is just the white portion; it can be printed on any color.

Mcmyk.eps

Mcmyk+white.eps

JPG file in RGB format (not for professional printing), 300 dpi (high resolution), 10" wide (will degrade if used larger). JPGs do not support transparency; note that it blocks the cirlce in background.

Do not judge a color by how it looks in a pdf. These eps files use black, white, and the two blues below.
