Viajes Culturales is a travel themed adventure camp which incorporates all aspects of STEAM to explore our world. Your child will learn about different countries and their culture using Science, Technology, Engineering, Art and Math.

Learn about landmarks and the rainforest. Build 3D crafts and design culturally important art projects. Play sports and games. Dance, sing and use culturally authentic musical instruments. Follow recipes for simple snacks and create fun postcards from your travels around the world using iPads and greenscreen technology.

We will visit countries such as Argentina, Italy, China, Costa Rica, Brazil, Panama and so many more!

See, feel, hear and taste different cultures
From around the world!
