# Montclair High School <br> Course Syllabus 

## Department: Mathematics

## Course: AP Statistics

## Level: AP

Credits: 5

## Course Description:

This course is designed to be equivalent to a one-semester, introductory, non-calculus-based, college course in statistics.

## Standards:

Students taking this course in high school should have successfully completed Algebra 2 and should have an SAT verbal score of at least 500.

Anchor Text(s):

| Text Title | Publisher/Author | Year/Edition | ISBN | Text Distribution |
| :--- | :--- | :--- | :--- | :--- |
| The Practice of <br> Statistics | Freeman | Fifth Edition | 978-1-4641-0873-0 | Hard copy |

## Supplementary Materials:

PowerPoints and worksheets. Please note that a $\mathrm{TI}-84$ is required for this class.

## Units of Study:

Students are exposed to four broad conceptual themes:

1. Exploring Data: Describing patterns and departures from patterns
2. Sampling and Experimentation: Planning and conducting a study
3. Anticipating Patterns: Exploring random phenomena using probability and simulation
4. Statistical Inference: Estimating population parameters and testing hypotheses>

## Proficiencies:

By the end of this course, students will:

- be introduced to the major concepts and tools for collecting, analyzing and drawing conclusions from data

## Evaluation \& Assessment:

- Homework $10 \%$
- Quizzes 40\%
- Test 50\%
